

DENBIGHSHIRE COUNTY COUNCIL'S
CLIMATE AND ECOLOGICAL CHANGE STRATEGY

Our Ecologically Positive Goal

OUR DELIVERY PLAN FOR 2030

OUR 2030 GOAL

Our goal is to protect, manage and restore our land as well as create new spaces for nature so that the ecosystems in Denbighshire are diverse, connected, big in scale and extent, in a healthy condition and adaptable and thus not only maintains biodiversity but enhances it.

We aim to deliver a positive impact for ecology from all of our activities:

Protect and improve biodiversity

Manage and restore land

Create new spaces for nature

We will increase species diversity across our Council owned and operated land

Convert the types of habitat that are least species-rich...

...into the types of habitats that are most species-rich

What do we need to do to reach our goals?

PRIORITY ACTIONS INCLUDE:

Make the best use of land the Council owns across the County

Plant trees and wild flowers within school grounds and around car parks

Ecological considerations built into land strategies and policies

Volunteer opportunities for environmental improvement placements

Leave grass to grow during the summer for wildlife

Replace outdoor lights to protect bats, birds and insects
